

index.js code below,

```
const express = require('express')
const dt = require('./mymodule')
const app = express()
const port = 8000
app.get('/', (req, res) => res.send('<h1> This is my home page </h1>'))
app.get('/about', (req, res) => res.send ('<h1>This is the about page</h1>'))
app.get('/contact', (req, res) => res.send (`<h1>Contact Me Page</h1>
<p> You can reach me on my phone number: 07XXXXXXXXX`))
app.get('/date', (req, res) => res.send('<h1> The date and time are currently: </h1>' + dt.myDateTime()))
app.listen(port, () => console.log(`Example app listening on port ${port}! ^C to terminate.`))
```

My module.js code below,

```
exports.myDateTime = function () {
  return Date();
};
```
